

## Leadership Carroll County Sponsorship Form

After a 7-year interlude, Leadership Carroll County is being relaunched for 2022-23. The Carroll County Economic Development Corporation is working with the Carroll County Chamber of Commerce, Camp Tecumseh YMCA, and the Family Health Clinic to revitalize this community leadership program.

The program will begin in August with 10, half-day sessions, concluding in May. The curriculum includes a combination of robust personal leadership and development topics as well as information about the county and current issues. A combination of local resources and nationally recognized leadership development programs will be utilized. LCC is open to any resident of Carroll County or any person with business or civic activities in Carroll County that has a desire to serve their community.

In order for this program to succeed this year and for many years to come, we need your help! Our corporations wish to educate as many future leaders as possible, and to do so, fees per student must be kept to a reasonable level. Because of this, we are asking for sponsorships or scholarships from local businesses that will help grow the leaders in our community.

The cost for an applicant to attend the program is \$250. If you wish to provide a scholarship for an attendee, a sponsorship of that amount would be greatly appreciated. Throughout the 10 sessions, we have many renowned speakers visiting Carroll County to present to the attendees. If you would like to help cover these costs, a \$500 session sponsor would be an immense help.

Sponsors that give \$500 or more will be given the opportunity to speak at one of the sessions, as well as all levels of sponsors having their logo featured on marketing gear. Leadership Carroll County is a worthwhile program that will benefit our community for years to come, and we really hope that you decide to invest in these current and upcoming leaders!
